Digital media maintains growth trajectory

Healthy revenue growth coupled with stable margin

Shemaroo Entertainment (SHEM IN) posted healthy revenue growth of 11.7% YoY to INR 1,322mn vs our estimates of INR 1,389mn), slightly lower than our estimates, due to muted growth in the traditional media segment. EBITDA margin was consistent at 31% YoY despite investments in the new OTT platform, *Shemaroo Me*. PAT grew 10% YoY to INR 206mn, in line with our estimates.

Recovery in YouTube drives growth in digital media

Revenue from digital media surged 31.6% YoY to INR 448mn, and it now contributes 34% of total revenue as on Q4FY19. The digital media segment was led primarily by the growing *YouTube* subscriber base to 21mn+ for *Filmy Gaane* and 15mn+ for *ShemarooENT*.

Muted ad growth spend on TV drags traditional media

The traditional media segment reported revenue growth of 4.4% YoY in Q4FY19 to INR 874mn, which was slightly lower on lower ad spend, due to the TRAI tariff order. Further, growth of video consumption on OTT platforms and subscription-based models had dragged revenue.

Valuation: reiterate Buy with a revised TP of INR 500

There has been a sharp fall in impressions of the movie genre at 54% MoM over January-April 2019 on TRAI order implementation; this has dragged ad revenue growth in the traditional media segment. Hindi movie genre contributes ~5% of TV ad spend, and ad growth is likely to be muted in the traditional segment until H1FY19, due to the TRAI order. Movie consumption also would continue to grow on OTT and digital, as consumers view movies as per their convenience, and not on prime time. SHEM already has a strong presence in the digital segment, as it has tied up with various content platforms, including Reliance Jio, and focused on niche genres, such as children, regional, religious and general content, enhancing depth to its offerings. It would need to ramp up investments in renewals and buy new movie content, which will negatively affect working capital and free cashflow; further, investments in platform and digital offerings would add to margin woes. The large content catalogue, a mix of perpetual and aggregated content, is the only advantage SHEM holds. We cut our FY21E earnings by 6.9% assuming a lower margin; we reiterate Buy and lower our TP to INR 500 from INR 550 as we rollover to March 2020E. Our new TP is on 11x (from 12x) one-year forward P/E.
