1 Aarti Pharmalabs Ltd.

Aarti Pharmalabs Limited (APL), part of the Aarti Group (FY26 turnover: INR 150+ bn), is a globally recognized manufacturer of generic APIs and xanthine derivatives, and a leading CDMO/CMO player. The company specializes in developing cost-efficient, scalable processes and operates USFDA, EU GMP, EDQM, KFDA, and COFEPRIS approved facilities. Strategically located in western India, APL benefits from strong export connectivity and access to regulated global markets.

2 Business Segments (H1-FY27)

Xanthine & Allied (50%) - India's largest manufacturer of xanthine derivatives catering to beverages, nutraceuticals, and pharmaceuticals. Fully backward integrated and non-China dependent, operating dedicated plants at Tarapur with ongoing capacity expansion from 6,000 MTPA to 9,000+ MTPA to increase global market share from 15–20% to 20–25%.

API & Intermediates (30%) - Backward integrated API business with 1,500+kL multipurpose reactor capacity and 14 finished API lines. Supported by USFDA-approved facilities and dedicated approvals for the US, EU, and Japan, with strong regulatory documentation and IPR capabilities driving presence in regulated markets.

CDMO & CMO (13%) – End to end CDMO partner for small-molecule NCEs, offering KSMs, RSMs, intermediates, and GMP APIs from early clinical phases to commercialization. Backed by three R&D centers, complex chemistry expertise, and 59 active projects (39 commercial, 20 underdevelopment) across 23 global customers.

Others (7%) - Scrap sales & other trading activity.

3 Key Strengths

- Strong financial profile with an AA- credit rating, reflecting stability and prudent capital management.
- Largest manufacturer of Xanthine derivatives in India with 15-20% global market share.
- Robust regulatory platform with 60 US DMFs and 44 CEP approvals across regulated markets.
- Innovation-driven operations with 63 API patents filed (29 granted) and expertise in novel chemistries.
- One of the leading small-molecule CDMO/CMO companies in India with regulatory-focused operations.
- Global presence with 7 manufacturing units (including 3 USFDA-approved facilities) and exports to 50+ countries.

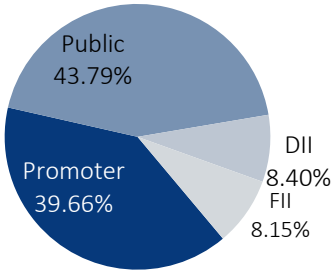

4 Key Growth Drivers

- Expand Xanthine capacity to 9,000+ MTPA to increase global market share and margins.
- Commission the Atali Greenfield project (450+ kL) to scale intermediates and CDMO/CMO.
- Target 40-50% YoY growth in the CDMO business in FY27.
- Increased total reactor capacity to 1,500+ kL to support commercialization.
- Strengthen API & Intermediates pipeline with focus on complex chemistries.
- Invest in renewable power projects to lower costs and reduce carbon footprint.
